

The Quickening Handgun Event

As promised by Chuck, the OCT 18th, event occurred on a beautiful sunny day strategically parked between two days of rain. On that day. A Novel, (perhaps even Unique) friendly handgun challenge went off without a hitch. The event, aptly titled "The Quickening", brought together 13 participants from multiple disciplines to demonstrate their skill and dedication to the martial art of handgun proficiency. In the end \$260 was raised for the club from the entry fees. Concurrently, there was no cost to the club, other than the use of the range facility since all the time and materials used in the preparation and conduct of this event were provided by member volunteers. Including the prizes and trophy awarded at completion. The Trophy awarded, brings a long standing SSA legacy of recognising outstanding skill with recreational firearms back to life. In this case specifically, recreational handgun use. With respect to the event's design, the trophy was awarded to the individual High Total Score achiever, from the 6 matches combined. Congratulations! Dave Fritz, winner of "The Quickening". Embrace your new SSA legend status with pride, because...."There Can Only Be, ONE!

Until someone takes your place at the next "Quickening".

Spring 2026.

A sincere thank you to all who participated, assisted, and volunteered. You know who you are.
